

Dishwashers

AQUA series

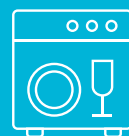

**MODERN
DESIGN**

**HIGH
QUALITY**

**RELIABLE
AND DURABLE**

Dishwashers

Our professional dishwashers work highly efficiently and quickly for impeccable cleanliness.
We recommend installing a water softener from 6°dH.

- improved heating element with increased corrosion and heat resistance made of Incoloy 800
- less susceptible to water with increased hardness & use in more chemically demanding environments
- new design with modern appearance
- new standard dishwasher with overheating protection
- low water consumption 2.5L/cycle
- short rinse cycles of 90/120/180 seconds, depending on version
- insertion height up to 415 mm
- extensive range of accessories available for different application
- own, resource-saving production and high-quality processing

AQUA A5 PURIST DESIGN

- Clear and durable labelling of the control panel
- Electronic control panel intuitive and easy to use

AQUA A3 INCLINED CONTROL PANEL

- Safe and easy to understand operation
- Easy to clean

AQUA H3 & H5 PRESSED CHAMBER

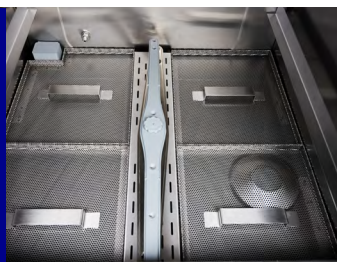

- Rounded rinsing chamber
- Easy to clean hygienically

AQUA A3 SUITABLE FOR RINSING HIGH GLASSES

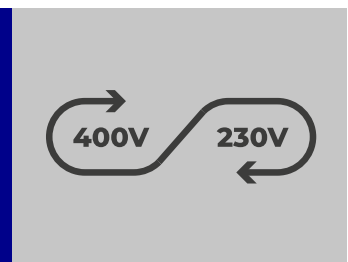

- Glassware washer Aqua A3, insertion height up to 300 mm
- Ideal for wheat beer glasses

ALL MODELS SAFE USER-FRIENDLY

- Easy to remove for cleaning
- Better protection of the pumps

AQUA A3 MULTIPHASE

- Dishwasher Aqua A3 with multiphase connection
- Supply voltage configurable: 400 V or 230 V

Stalgast Aqua A3 | Glassware washer

- electromechanical control ideally suited for glasses
- also recommended for coffee dishes
- suitable for open kitchen and counter areas thanks to the compact design 3 spray arms (wash and rinse arm at the bottom, rinse arm at the top)
- insertion height up to 300 mm
- rinsing cycles: 120 or 180 seconds
- indicator of boiler and chamber reaching operating temperature
