We have been supporting gastro businesses in Poland and abroad for **over 30 years!**

We are a team of professionals in various areas: engineers and designers, sales managers who are also your product advisors, culinary experts and service technicians. We have a business approach to gastronomy and share your strive to succeed. That's why we advise, support, cooperate but, above all, build long-lasting partnerships. We offer effective solutions and reliable equipment, while supporting our customers all the way from business idea to fully functioning successful business. Gastronomy is our passion. In cooperation with the best specialists, we produce gastronomy equipment and select products from renowned global manufacturers.

We are happy to share our experience and knowledge of gastronomy with you!

Our Logistics Center, built in 2018, is one of the largest and most advanced in the industry. We use state-of-the-art equipment and processes to ensure safe and fast deliveries to our domestic and foreign customers.

- 20 000 pallet capacity
- Same-day shipments
- Over 7500 products in stock
- 10 ramps

Polish production

Modern Factory of Gastronomy Equipment in Radom.

We have been manufacturing gastronomy equipment and accessories since 2008. Our factory in Radom was completely overhauled in 2020 to ensure we operate the most advanced production facilities.

Our products include “24h” and „on demand” stainless steel furniture, professional dishwashers, ventilation hoods, commercial kitchen range and serving lines.

We are the only company in the country that manufactures gastronomic accessories made of plastic, including dishwasher baskets and cutting boards. We keep adding new products from this group to our offer.

As a market leader, we have introduced innovative, environmentally friendly solutions in the production of stainless steel furniture, and we are successfully expanding this process on other product ranges.

Our 20-strong Research and Development Center is constantly working to ensure the quality of our products.

We work with
220 partners
in over **40** countries

Rak system

Expandable system

Specially designed mounting slots allow for the independent configuration of the system or its future expansion.

Ergonomic and reliable handles

The specially designed handles make it easier to carry, handle, stack and empty the dishwasher after a completed washing cycle.

Glassware safety

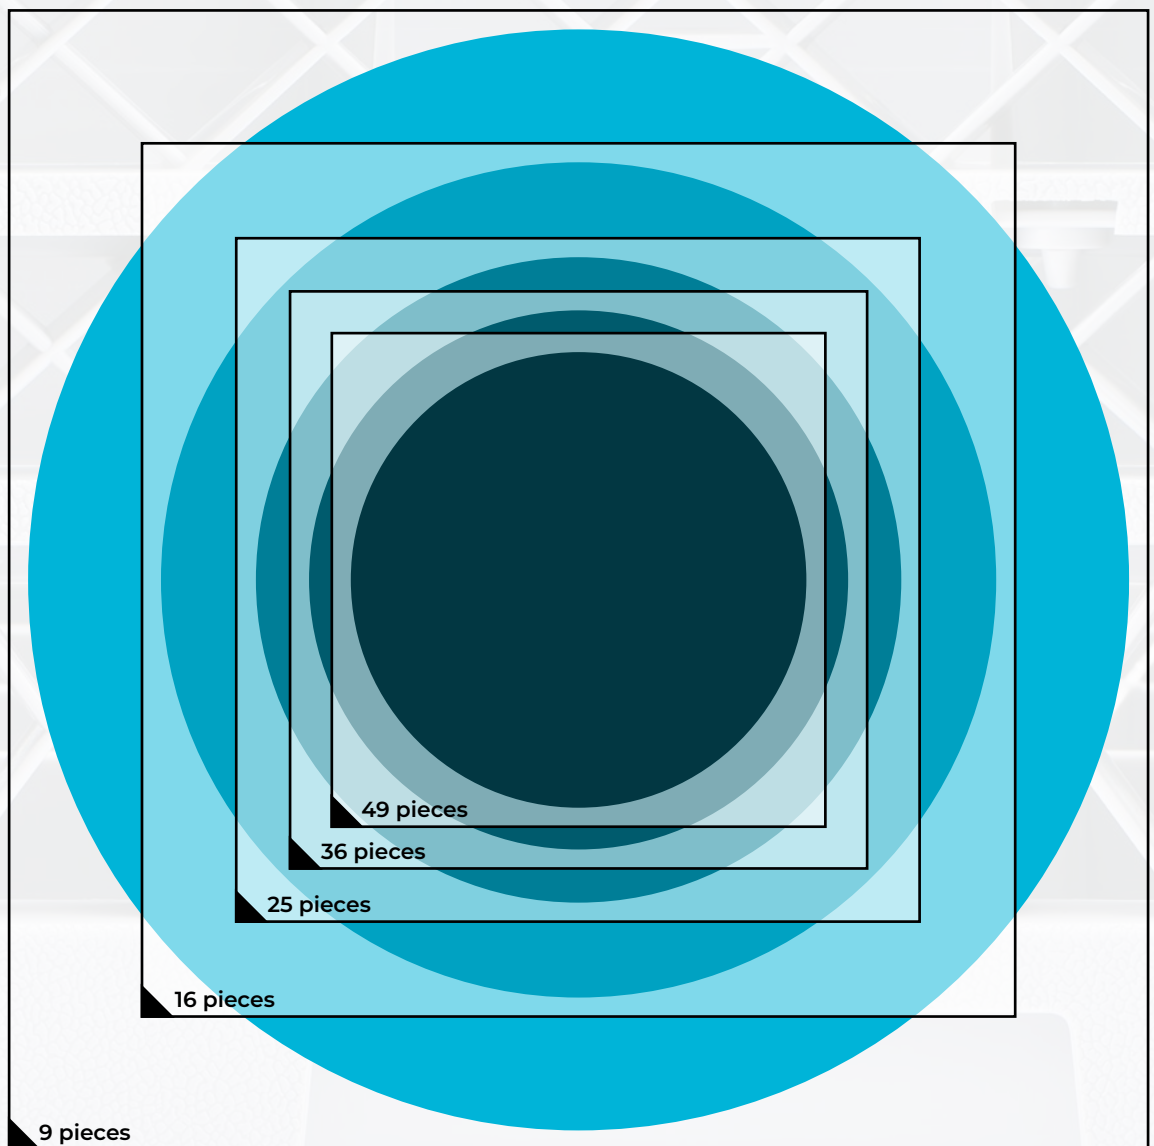

The size of compartments is adapted to the glassware diameter. This protects the glassware from damage, while ensuring perfect washing results.

Select the correct rack!

SELECT THE CORRECT RACK!

1. Put the glass upsidedown on the provided chart.
2. Check which semicircle corresponds to the diameter of the glass.
3. Read the number of pieces that can be placed in the rack in the bottom left corner of the square corresponding to the given semicircle. Select the appropriate rack and extender for the number of pieces indicated in the bottom of the square.
4. If the measured glass has handles (e.g. beer mugs), the entire vessel along with the handle has to fit within the square indicating the number of pieces in the given rack.
5. The necessary number of extenders is determined by applying the glass to the 80, 120, 160 mm size chart.
